SUMMARY

A highly motivated and detail-oriented Software Developer with expertise in full-stack development, specializing in Laravel, Next.js, Flutter, and PostgreSQL. Experienced in building scalable web and mobile applications with a focus on performance, security, and user experience. Adept at working efficiently under tight deadlines, often completing projects well ahead of schedule. Passionate about learning new technologies and delivering high-quality solutions.

EXPERIENCE

Programmer Intern

PT Bonet Utama

January 2025 – Present, Bogor, Indonesia

- **Developed 3 web and mobile applications** at PT Bonet Utama, including **Webview Pindai**, **SageSolution Website**, and **RTIK Website**, with 1 more project in progress.
- **Integrated security features** in a Flutter-based WebView app to detect and block **Fake GPS and rooted devices**, ensuring accurate attendance data.
- **Built a modern, responsive company website** using **Next.js**, **Laravel**, **Tailwind CSS**, and **PostgreSQL**, improving online presence and CMS management.
- **Learned and implemented Repository Pattern and PostgreSQL** in record time while developing the **RTIK Website**, showcasing adaptability to new technologies.
- **Consistently delivered projects ahead of deadlines**, completing development phases **3-5 days earlier**, allowing extra time for optimization and debugging.

EDUCATION

Diploma in Software and Game Development (PPLG)

SMK Negeri 4 Bogor • Bogor, Indonesia • 2025

- "During my studies, I actively worked on fullstack development projects, including a multiplatform school gallery system as my personal Ujikom project, built with Flutter and Laravel.
- Additionally, I provided web development services for Ujikom, successfully completing nearly 20 projects with multi-role systems, ensuring seamless user experiences. I also gained experience in server deployment using Ubuntu and FileZilla.
- In my first year, I participated in a Project-Based Learning program at PT Bonet Utama, where I contributed to developing a hotel booking application, further strengthening my practical development skills."

SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, PHP, Python, Dart, Java, C++, Golang
- **Styling:** Tailwind CSS, Bootstrap, Chakra UI
- **Frameworks:** Laravel, Flutter, Express.js, Next.js, Vue.js
- **Libraries:** React.js, Three.js, Framer Motion
- **API Tools:** Postman
- **Databases:** MySQL, PostgreSQL, Firebase
- **Version Control:** GitHub, GitLab, Bitbucket
- **Deployment & Server Management:** Vercel, Ubuntu Server
